Please remove this page if you plan to make this catalogue available to your retail customers.

Dear Raceway Owner:

In our ongoing process to improve our industry leading catalogue we have added a new feature. We have added a discount column utilizing a single letter code so you can still display it in your store. It is the last column to the right. We felt the need to do this since I feel that it is our best interest to use the manufacturers suggested retail prices unlike some of our competitors who artificially inflate the retail price. We suggest that you check this column before setting your retail pricing. Please note that we have 9 discount categories with this catalogue and they are:

A= XX% plus your cash discount.
An= XX% without any cash discount.
B= XX% plus your cash discount.
C=XX% plus your cash discount.
D=XX% plus your cash discount.
E=XX% plus your cash discount.
F=XX% plus your cash discount.
G=XX% plus your cash discount.
N=Net pricing no cash discount.
S=Special Closeout XX-XX% Discount

Please feel free to contact us if you have any questions. We are happy to be of service to you and your customers.

The Crawley Distributing Inc. support team.
